

I do not want the "Do not Call" program to be altered in any way.
I do not appreciate those annoying calls all hours of the day.
Also, I pay for my home phone and pay to have it unlisted...it
should be our choice who calls our personal numbers. I choose not
to have my number used for the benefit of the telemarketers. If
this is to happen I will not use a home phone I will just keep my
cell.
